<b>Office Action Summary</b>	<b>Application No.</b> 10/731,340	<b>Applicant(s)</b> ANDERSON, PETER C.	
	<b>Examiner</b> James O. Hansen	<b>Art Unit</b> 3637	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Election/Restrictions***

1. Claim 12 is generic to the following disclosed patentably distinct species: Group 12A - consisting of desktops, kiosks, work stations, work benches (viewed as tool tables), library tables, conference tables, credenzas, dressing tables, vanities, chests, secretaries, occasional tables, and kitchen counters; Group 12B - consisting of plane or boat bulkheads and hatches; Group 12C - consisting of commodes, benches, and seats or chairs; and Group 12D - consisting of floors, roads, sidewalks, pavement, and lawns. The species are independent or distinct because the members as grouped together are so unrelated and diverse that a prior art reference anticipating the claim with respect to one of the members in a particular group would not render the claim obvious under 35 USC 103 with respect to the other member(s) in a different group.

### **MPEP § 803.02.**

Additionally, Claims 21 & 25 are generic to the following disclosed patentably distinct species: Group 21/25A - consisting of solar panels; Group 21/25B - consisting of work surfaces; Group 21/25C - consisting of covers, hatch covers, access panels and manhole covers; and Group 21/25D - consisting of seats. The species are independent or distinct because the members as grouped together are so unrelated and diverse that a prior art reference anticipating the claim with respect to one of the members in a particular group would not render the claim obvious under 35 USC 103 with respect to the other member(s) in a different group. **MPEP § 803.02.**

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for each claim, even though this requirement is traversed. Applicant is advised that a

Art Unit: 3637

reply to this requirement must include an identification of the species that is elected consonant with this requirement. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143).

The election of an invention or species may be made with or without traverse. To reserve a right to petition, the election must be made with traverse. If the reply does not distinctly and specifically point out supposed errors in the restriction requirement, the election shall be treated as an election without traverse.

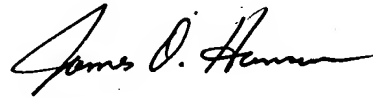

Should applicant traverse on the ground that the inventions or species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the inventions or species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to James O. Hansen whose telephone number is 571-272-6866. The examiner can be reached on Monday-Friday between 8-4:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 571-272-6867. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
